TURNERS BUY HOME

Columbia Verein Acquires Normont Residence.

PROPERTY BRINGS \$20,500

Secretary of Society Takes Title Which Will Be Transferred After Charter Is Amended—Deeds for Post-office Site Go to Record. G Street Rumor Denied.

In pursuance of the purpose started a year ago, the Columbia Turn Verein yesterday completed a deal for real estate, which will become the site for its permanent home. The property in question is taken in the deal by F. E. Mann, secretary to the Columbia Turn Verein, who acquired the property through William B. Turpin, for \$20,500.

It is said that the final transfer will take place after necessary changes in the charter of the organization have been effected enabling the society to acquire and hold real estate.

It is understood that the turners will remodel the building to suit their purposes and that a large and modern gymnasium to accommodate the growing gymnastic classes will be added to the property, and that arrangements are already under way to rush the work.

Fine Old Residence.

The building, which is a three-story and mansard roof brick house, has a frontage of sixty-four feet, by a depth of 120 feet, including the surrounding lot, and was built shortly after the war by John R. Elvans, at that time one of the leading hardware merchants of this city. After his death the property passed into the hands of Capt. George H. Plant, prominent in building, steamboat, and banking enterprises in this city, who sold it to Samuel Normont, president of the Central National Bank, who left the property to his widow, who now has disposed of the same to F. E. Mann.

The double brick mansion has an alley on the side and in the rear and includes a big brick stable, which faces the rear alley. The property contains 7,500 square feet. Artistic iron ornaments and big mirrors throughout the halls of the house are one of its many attractions.

Post-office Title Passes.

The transfer of the property purchased some weeks ago by the United States for the new city post-office was transferred yesterday by the record of the papers in the transaction. Title to the property, which is bounded by Massachusetts avenue, G street, North Capitol street, and the new street recently constructed west of the Union Station, is conveyed by the Real Estate Improvement Company, of Baltimore, to the Treasurer of the United States. A nominal amount is stated in the deeds, but the price understood to be involved in the purchase is \$20,500.

The Real Estate Improvement Company is the holding company of real estate for the Baltimore and Ohio Railroad Company, from which the property was bought.

A very large rumor in circulation yesterday, that the property most of it vacant, at the southwest corner of Fourteenth and G streets northwest, owned by the Fruit estate, had been sold, was traced last night to its placing on the court calendar by Chapin Brown, attorney for the estate, of the decree for sale of the property.

Mr. Brown said he had filed this application about a year ago, it being the purpose of the owner to sell himself to obtain a decree for the sale of the property, because frequent applications have been made by prospective purchasers, and it was thought wise to be ready for the prompt sale of the property, provided a buyer should come along with an offer acceptable to the owners.

Mr. Brown declared that no sale of the property was now pending.

Lot Brings \$8,250.

William, Gibbs & Daniel have sold for John F. Lynch lot 84 in block 6, Ingle-side subdivision, improved by the premises 333 Eighteenth street, between Monroe and New York streets northwest. The house is one of a row built about two years ago by Mr. Lynch.

The purchaser, Prof. Robert Ridgway, ornithologist of the Smithsonian Institution, will occupy the premises as his residence. The house occupies a lot 18 feet front by a depth of 120 feet, and is situated on a terrace. It has an attractive colonial front of Roman brick, with white stone trimmings. It is understood that \$8,250 was paid for the property.

E. K. Ellsworth has bought of Thomas J. Fisher & Co. a new brick residence in the Fourteenth street, between A and Ames streets and North Carolina avenue. Twenty-six houses of the same class are now nearing completion, and when they have been sold the entire residential property in the four streets named will be occupied. The property changed hands for \$3,750, and Mr. Ellsworth intends holding it as an investment.

H. T. Lewis bought the two-story brick residence at 129 Monroe street northwest. The house was sold at auction by Thomas J. Owen & Co., and was secured on a bid of \$5,000. It contains six rooms, and Mr. Lewis intends to put the house on the market at once.

St. John's to Be Closed.
